Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/515, Wood preservation, upon which the following bodies were represented:

- British Wood Preserving and Damp-proofing Association
- Chemical Industries Association
- Creosote Council
- Department of the Environment (Building Research Establishment)
- Electricity Industry in United Kingdom
- Institute of Wood Science
- National House-Building Council
- Timber Research and Development Association
- Timber Trade Federation

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Association of Consulting Scientists
- Imperial College of Science and Technology

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 July 1995

National foreword

This Part of BS EN 1014 has been prepared by Technical Committee B/515 and is the English language version of EN 1014-1:1995 *Wood preservatives — Creosote and creosoted timber — Methods of sampling and analysis — Part 1: Procedure for sampling creosote*, published by the European Committee for Standardization (CEN). EN 1014-1 was produced as a result of international discussion in which the United Kingdom participated

It is intended that BS EN 1014 will consist of the following Parts:

- *Part 1: Procedure for sampling creosote;*
- *Part 2: Procedure for sampling creosoted timber and the extraction of creosote from the sample;*
- *Part 3: Method for the determination of the Benzo-a-pyrene content of creosote;*
- *Part 4: Method for the determination of the water extractable phenols content of creosote.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Wood, wood preservatives, impregnating, creosote, sampling

English version

Wood preservatives — Creosote and creosoted timber — Methods of sampling and analysis — Part 1: Procedure for sampling creosote

Produits de préservation du bois — Créosote et
bois créosoté — Méthodes d'échantillonnage et
d'analyse —
Partie 1: Procédure d'échantillonnage de la
créosote

Holzschutzmittel — Teerimprägnieröl und
damit imprägniertes Holz — Probenahmen und
Analysen —
Teil 1: Verfahren zur Probenahme von
Teerimprägnieröl

This European Standard was approved by CEN on 1994-11-25. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
