

Specification for

Electrolytically zinc coated cold rolled steel flat products — Technical delivery conditions

The European Standard EN 10152:1993 has the status of a
British Standard

UDC 669.146.91.5–41–122.2:620.1

Cooperating organizations

The European Committee for Standardization (CEN), under whose supervision this European Standard was prepared, comprises the national standards organizations of the following countries:

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimislito, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, having been prepared under the direction of the Iron and Steel Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 January 1994

National foreword

This British Standard has been prepared under the direction of the Iron and Steel Policy Committee and is the English language version of EN 10152 *Electrolytically zinc coated and cold rolled steel flat products*. It supersedes BS 6687:1986 which is withdrawn.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

UDC 669.146.91.5-41-122.2:620.1

Descriptors: Iron and steel products, cold rolled products, metal bars, steels, galvanizing, electrodeposited coatings, designation, delivery, chemical composition, mechanical properties, adhesion, appearance, quality classes, inspection, marking

English version

Electrolytically zinc coated cold rolled steel flat products — Technical delivery conditions

Produits plats en acier, laminés à froid,
revêtus de zinc par voie électrolytique —
Conditions techniques de livraison

Elektrolytisch verzinkte kaltgewalzte
Flacherzeugnisse aus Stahl — Technische
Lieferbedingungen

This European Standard was approved by CEN on 1993-10-15. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been drawn up by ECISS/TC 27, Surface coated flat products, the Secretariat of which is held by Normenausschuß Eisen und Stahl (FES) im DIN.

The European Standard EN 10152 supersedes Euronorm 152-80 *Electrolytic zinc coated steel flat rolled products*

At a meeting of ECISS/TC 27 held on 7 July 1992 in Düsseldorf the text was agreed for circulation for formal vote within CEN. The following countries were represented at this meeting: Austria, Belgium, Finland, France, Germany and United Kingdom.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 1994, and conflicting national standards shall be withdrawn at the latest by April 1994.

In accordance with the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
