

Technical delivery conditions for steel castings for pressure purposes

Part 1. General

The European Standard EN 10213-1 : 1995 has the status of a
British Standard

ICS 77.140.30

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/6, Steel castings, upon which the following bodies were represented:

- BEAMA Ltd.
- British Pump Manufacturers' Association
- British Valve and Actuator Manufacturers' Association
- Castings Technology International
- Engineering Equipment and Materials Users' Association
- Hopkinsons Limited
- Institute of British Foundrymen
- Institution of Mechanical Engineers
- Lloyd's Register of Shipping
- Ministry of Defence
- Railway Industry Association

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 May 1996

National foreword

This British Standard has been prepared under the direction of the Technical committee ISE/6, Steel castings, and is the English language version of EN 10213-1 *Technical delivery conditions for steel castings for pressure purposes — Part 1: General* published by the European Committee for Standardization (CEN).

The following Parts of BS EN 10213 supersede BS 1504 : 1976 which is now withdrawn:

BS EN 10213-1 *Technical delivery conditions for steel castings for pressure purposes*
Part 1 : 1996 *General*

BS EN 10213-2 *Technical delivery conditions for steel castings for pressure purposes*
Part 2 : 1996 *Steel grades for use at room temperature and elevated temperatures*

BS EN 10213-3 *Technical delivery conditions for steel castings for pressure purposes*
Part 3 : 1996 *Steels for use at low temperatures*

BS EN 10213-4 *Technical delivery conditions for steel castings for pressure purposes*
Part 4 : 1996 *Austenitic and austenitic-ferritic steel grades*

Compliance with a British Standard does not of itself confer immunity from legal obligations.

ICS 77.140.10

Descriptors: Cast steels, structural steels, boilers, pressure equipment, delivery, generalities, designation, grades: quality, manufacturing, chemical composition, mechanical properties, tests, marking

English version

Technical delivery conditions for steel castings for pressure purposes — Part 1: General

Conditions techniques de livraison des pièces
moulées en acier pour service sous pression —
Partie 1: Généralités

Technische Lieferbedingungen für Stahlguß für
Druckbehälter —
Teil 1: Allgemeines

This European Standard was approved by CEN on 1995-10-20. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
