Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/10, Flat rolled steel products, upon which the following bodies were represented:

- British Railways Board
- British Steel Industry
- Cold Rolled Sections Association
- Society of Motor Manufacturers and Traders Limited

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Welded Steel Tube Association
- Coated Metals Limited
- Department of the Environment (Property Services Agency)
- International Tin Research Institute
- Metal Roof Deck Association
- National Association of Steel Stockholders
- National Centre of Tribology
- Paintmakers Association of Great Britain Ltd.
- Zinc Development Association

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1995

National foreword

This British Standard has been prepared by Technical Committee ISE/10 and is the English language version of EN 10215:1995 *Continuously hot-dip aluminium-zinc (AZ) coated steel strip and sheet — Technical delivery conditions*, published by the European Committee for Standardization (CEN). It supersedes BS 6830:1987 which is withdrawn.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 77.140.50

Descriptors: Iron- and steel products, metal plates, steel strips, steels, coated metal, continuous coating, hot dip coating, galvanizing, aluminium plating, designation, classifications, grades: quality, mechanical properties, finishing, quality, delivery, inspection, tests, marking

English version

Continuously hot-dip aluminium-zinc (AZ) coated steel strip and sheet — Technical delivery conditions

Bandes et tôles en acier revêtues d'alliage aluminium-zinc (AZ) à chaud en continu — Conditions techniques de livraison

Kontinuierlich schmelztauchveredeltes Band und Blech aus Stahl mit Aluminium-Zink-Überzügen (AZ) — Technische Lieferbedingungen

This European Standard was approved by CEN on 1995-02-10. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
