Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/12, Structural steels, upon which the following bodies were represented:

- BEAMA Ltd.
- British Constructional Steelwork Association Ltd.
- British Iron and Steel Producers' Association
- British Railways Board
- Department of Transport
- Institution of Structural Engineers
- Lloyds Register of Shipping
- National Association of Steel Stockholders
- Railway Industry Association
- Society of Motor Manufacturers and Traders Limited
- Steel Construction Institute
- Welding Institute

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 March 1996

National foreword

This British Standard has been prepared by Technical Committee ISE/12 and is the English language version of EN 10248-1:1995 *Hot rolled sheet piling of non alloy steels — Part 1: Technical delivery conditions* published by the European Committee for Standardization (CEN).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 77.140.70

Descriptors: Iron and steel products, hot rolled products, sheet pilings, steels, unalloyed steels, chemical composition, grades: quality, classifications, designation, mechanical properties, weldability, surface condition, tests, inspection, marking

English version

Hot rolled sheet piling of non alloy steels — Part 1: Technical delivery conditions

Palplanches laminées à chaud en aciers non alliés — Partie 1: Conditions techniques de livraison

Warmgewalzte Spundbohlen aus unlegierten Stählen — Teil 1: Technische Lieferbedingungen

This European Standard was approved by CEN on 1995-05-19. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard was prepared by SC4, Sheet piling, of Technical Committee ECISS/TC10, Structural steels — Qualities, the secretariat of which is held by NNI.

EN 10248 is composed of two parts:

- *Part 1: Technical delivery conditions;*
- *Part 2: Tolerances on shape and dimensions.*

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 1995, and conflicting national standards shall be withdrawn at the latest by December 1995.

According to the CEN/CENELEC International Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.
