Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/NFE/5, Magnetic alloys and steels, upon which the following bodies were represented:

- Association of Manufacturers Allied to the Electrical and Electronic Industry (BEAMA Ltd.)
- British Steel Industry
- Department of Trade and Industry (National Physical Laboratory)
- Electricity Supply Industry in England and Wales
- Electronic Components Industry Federation
- GAMBICA (BEAMA Ltd.)
- Institute of Physics
- Rotating Electrical Machines Association (BEAMA Ltd.)
- Sunderland Polytechnic (Magnet Centre)
- Transmission and Distribution Association (BEAMA Ltd.)
- Wolfson Centre for Magnets Technology
- Co-opted members

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 September 1997

National foreword

This British Standard has been prepared by Technical Committee ISE/NFE/5 and is the English language version of EN 10251 : 1997, *Magnetic materials — Methods of determination of geometrical characteristics of electrical steel sheet and strip*. It supersedes BS 6404 *Magnetic materials — Part 9 : 1988 Methods for determination of the geometrical characteristics of magnetic steel sheet and strip*, which is withdrawn.

International standard	Corresponding British Standard
IEC 404-1	BS 6404 <i>Magnetic materials</i> Part 1 : 1984 <i>Classification</i>

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

ICS 29.040.10; 77.140.50

Descriptors: Metal plates, magnetic alloys, magnetic circuits, steels, tests, determination, geometric characteristics, definitions, flatness, straightness, curvature

English version

Magnetic materials — Methods of determination of the geometrical characteristics of electrical steel sheet and strip

Matériaux magnétiques —
Méthodes de détermination des caractéristiques
géométriques des tôles magnétiques en acier

Magnetische Werkstoffe —
Verfahren zur Bestimmung der geometrischen
Kenngrößen von Electrolech und-band

This European Standard was approved by CEN on 1995-10-21. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
