

Heat resistant steel castings

The European Standard EN 10295:2002 has the status of a
British Standard

ICS 77.140.80

National foreword

This British Standard is the official English language version of EN 10295:2002.

The UK participation in its preparation was entrusted to Technical Committee ISE/6, Steel castings, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Engineering Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 6 December 2002

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 15 and a back cover.

English version

Heat resistant steel castings

Aciers moulés réfractaires

Hitzebeständiger Stahlguss

This European Standard was approved by CEN on 13 July 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 10295:2002) has been prepared by Technical Committee ECISS/TC 31 "Steel castings", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 2003 and conflicting national standards shall be withdrawn at the latest by April 2003.

Annexes A, B, C, and D are informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Introduction

This draft European Standard retains the same format for clauses as EN 1559-1 and EN 1559-2. It should be used in conjunction with these standards. Where no text is given under a clause heading, the corresponding clause of EN 1559-1 or EN 1559-2 applies.

The structure of this standard is as follows :

- $\frac{3}{4}$ clauses and sub-clauses preceded by ■ indicates no additional conditions to EN 1559-1 or EN 1559-2¹⁾ ;
- $\frac{3}{4}$ sub-clauses marked with one dot “•” indicate that conditions shall be agreed at the time of enquiry and order ;
- $\frac{3}{4}$ sub-clauses and paragraphs marked with two dots “••” indicate that conditions may be agreed at the time of enquiry and order (optional) ;
- $\frac{3}{4}$ sub-clauses without dot marking are mandatory.

1) When additional information is given in a clause or sub-clause of this standard (versus the same clause or sub-clause of EN 1559-1 or EN 1559-2) it is preceded by "In addition to EN 1559:...".
