Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/541, Wood-based panels, upon which the following bodies were represented:

- American Plywood Association
- Association of British Plywood and Veneer Manufacturers
- British Woodworking Federation
- Chartered Institute of Building
- Co-ordinator for Timber and Timber Products
- Council of the Forest Industries of British Columbia
- Department of the Environment (Building Research Establishment)
- Finnish Plywood International
- Flat Roofing Contractors' Advisory Board
- Forestry Commission
- Furniture Industry Research Association
- Institution of Structural Engineers
- Local Authority Organizations
- Mineral Bonded Board Products Federation
- National Federation of Roofing Contractors
- National House-building Council
- National Panel Products Association
- Royal Institute of British Architects
- Structural Board Association
- Timber Research and Development Association
- Timber Trade Federation
- Wood Panel Products Federation
- Zurich Insurance Company

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 June 1995

National foreword

This British Standard has been prepared by Technical Committee B/541 and is the English language version of EN 1087-1:1995 *Particleboards — Determination of moisture resistance — Part 1: Boil test*.

EN 1087-1:1995 was produced as a result of international discussion in which the United Kingdom took an active part.

This method of test is not comparable with any of the methods of test given in BS 1142:1989 *Specification for fibre building boards*, or BS 5669-1:1989 *Particleboard — Part 1. Methods of sampling, conditioning and test*, both of which will be withdrawn in due course.

Cross-references

Publication referred to	Corresponding British Standard
EN 314-2:1993	BS EN 314 <i>Plywood. Bonding quality Part 2:1993 Requirements</i>
EN 319:1993	BS EN 319:1993 <i>Particleboards and fibreboards. Determination of tensile strength perpendicular to the plane of the board</i>
