National foreword

This British Standard is the English language version of EN 1093-1:1998.
The UK participation in its preparation was entrusted to Technical Committee MCE/3, Safeguarding of machinery, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This British Standard, having been prepared under the direction of the Engineering Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 January 1999

English version

Safety of machinery — Evaluation of the emission of airborne hazardous substances — Part 1: Selection of test methods

Sécurité des machines — Evaluation de l'émission de substances dangereuses véhiculées par l'air —
Partie 1: Choix des méthodes d'essai

Sicherheit von Maschinen — Bewertung der Emission von luftgetragenen Gefahrstoffen —
Teil 1: Auswahl der Prüfverfahren

This European Standard was approved by CEN on 4 September 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 114, Safety of machinery, the Secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by March 1999, and conflicting national standards shall be withdrawn at the latest by March 1999.

This European Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative annex ZA, which is an integral part of this standard.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page
Foreword	2
0 Introduction	3
1 Scope	3
2 Normative references	3
3 Definition of assessment parameters	3
3.1 general	3
3.2 emission rate of a specified pollutant	4
3.2.1 uncontrolled emission rate of a specified pollutant ($\dot{m}_u$)	4
3.2.2 controlled emission rate of a specified pollutant ($\dot{m}_k$)	4
3.3 capture efficiency (η_c)	4
3.4 separation efficiency by mass (η_s)	4
3.5 pollutant concentration parameter (P_c)	4
3.6 decontamination index (I_A)	4
4 Types of test methods	4
4.1 General	4
4.2 Nature of “pollutant” used	5
4.3 Nature of the test environment	5
4.3.1 Laboratory methods	5
4.3.2 Field method	5
4.4 Summary table	5
5 Basis for selection of test methods	6
5.1 General	6
5.2 Selection relative to the assessment parameter	6
5.3 Selection relative to the test environment	6
5.4 Selection relative to the nature of the pollutant	6
6 Statistical evaluation	7
6.1 Estimation of the mean	7
6.2 Confidence interval for the mean	7
Annex A (informative) Standards suitable for the measurement of gas flow rates	7
Annex ZA (informative) Clauses of this European Standard addressing essential requirements or other provisions of EU Directives	8
