Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee MCE/3, Safeguarding of machinery, upon which the following bodies were represented:

- Advanced Manufacturing Technology Research Institute
- British Cable Makers' Confederation
- British Compressed Air Society
- British Rubber Manufacturers' Association
- British Textile Machinery Association
- Consumer Policy Committee of BSI
- Engineering Employers' Federation
- Engineering Equipment and Material Users' Association
- Federation of Bakers
- Health and Safety Executive
- Institution of Occupational Safety and Health
- Loss Prevention Council
- Machine Tool Technologies Association
- Machinery Safety Equipment Manufacturers' Association
- PICON
- Society of Laundry Engineers and Allied Trades Limited
- Trades Union Congress

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 September 1996

National foreword

This British Standard has been prepared by Technical Committee MCE/3 and is the English language version of EN 1093-3 : 1996 *Safety of machinery — Evaluation of the emission of airborne hazardous substances Part 3: Emission rate of a specified pollutant — Bench test method using the real pollutant* published by the European Committee for Standardization (CEN). EN 1093-3 was produced as a result of international discussion in which the UK took an active part.
