Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/504, Water supply, to Subcommittee B/504/8, Water fittings, upon which the following bodies were represented:

- Association of Manufacturers of Domestic Unvented Supply Systems Equipment (MODUSSE)
- British Bathroom Council
- British Non-Ferrous Metals Federation
- British Plastics Federation
- British Plumbing Fittings Manufacturers' Association
- Builders Merchants Federation
- Chartered Institution of Water and Environmental Management
- Consumer Policy Committee of BSI
- European Metal Sink Manufacturers' Association
- Institute of Plumbing
- Institution of Water Officers
- National Association of Plumbing, Heating and Mechanical Services Contractors
- Society of British Gas Industries
- Water Companies Association
- Water Research Centre

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 August 1997

National foreword

This British Standard has been prepared by Subcommittee B/504/8 and is the English language version of EN 1113 : 1997 *Shower hoses for (PN 10) sanitary tapware*, published by the European Committee for Standardization (CEN).

EN 1113 was published as a result of international discussion in which the UK took an active part.

No national standard is withdrawn as a result of this publication.

Cross-references

Publication referred to	Corresponding British Standard
EN 248 : 1992	BS EN 248 : 1992 <i>Sanitary taps : General technical specifications for electrodeposited nickel chrome coatings</i>
EN 1112 : 1997	BS EN 1112 : 1997 <i>Shower outlets for (PN 10) sanitary tapware</i>
EN ISO 3822-1	BS 6864 <i>Laboratory tests on noise emission from appliances and equipment intended for use in water supply installations</i>
ISO 228-1	Part 1 : 1987 <i>Method for measurement</i> BS 2779 : 1986 <i>Specification for pipe threads for tubes and fittings where pressure-tight joints are not made on the threads (metric dimensions)</i>

CAUTION. Attention is drawn to the scope of this standard and the pressures specified under 'Limits of use' given in table 1. Care should be taken to ensure that where products covered by this standard are used in association with devices having a higher limit of use (e.g. mixing valves), the dynamic pressure given in table 1 is not exceeded.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

This European Standard was approved by CEN on 1996-12-25. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
