Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee EPL/94, General purpose relays and reed contact units, upon which the following bodies were represented.

- FEI (Federation of the Electronics Industry)
- Ministry of Defence
- National Supervising Inspectorate — BSI PC

National foreword

This British Standard has been prepared by Technical Committee EPL/94 and is the English language version of EN 116503:1992: *Blank detail specification: Electromechanical all-or-nothing Telecom relays of assessed quality, dual-in-line, with 14 mm × 9 mm base*, together with its amendment A1:1995, published by the Electronic Components Committee (CECC) of the European Committee for Electrotechnical Standardization (CENELEC).

This standard lists the ratings, characteristics and inspection requirements which shall be included as mandatory requirements in any detail specification for this type of relay.

Text modified by amendment A1:1995 is indicated by a sideline in the margin.

Detail specifications shall conform to the requirements of this blank detail specification and to BS CECC 00111 *Rule of Procedure 11. Specifications — Part 4:1991 Regulations for CECC detail specifications*.

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality — Part 2:1991 Specification for the national implementation of the CECC system*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, the EN title page, page ii, an additional EN title page, pages 2 to 29 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Quality, electronic components, TELECOM relays

English version

**Blank Detail Specification:

régime d'assurance de la qualité

Vordruck für Bauartspezifikation:
Gütebestätigte elektromechanische
Dual-in-line TELEKOM-Relais
mit 14×9 mm Grundfläche

This amendment A1 modifies the European Standard EN 116503:1992; it was approved on 1994-08-22. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

This European Standard was approved by the CENELEC Electronic Components Committee (CECC) on 10 August 1992. CENELEC members are bound to comply with CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the General Secretariat of the CECC or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CECC General Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and United Kingdom. The membership of the CECC is identical, with the exception of the national electrotechnical committees of Greece, Iceland and Luxembourg.

Preface

The CENELEC Electronic Components Committee (CECC) is composed of those member countries of the European Committee for Electrotechnical Standardization (CENELEC) who wish to take part in a harmonized System for electronic components of assessed quality.

The object of the System is to facilitate international trade by the harmonization of the specifications and quality assessment procedures for electronic components, and by the grant of an internationally recognized Mark, or Certificate, of Conformity. The components produced under the System are thereby acceptable in all member countries without further testing.

This specification has been formally approved by the CECC, and has been prepared for those countries taking part in the System who wish to issue national harmonized specifications for ELECTROMECHANICAL ALL-OR-NOTHING RELAYS. It should be read in conjunction with the current regulations for the CECC System.

Foreword

This specification was prepared by CECC WG 16 "Relays".

It is based, wherever possible, on the Publications of the International Electrotechnical Commission (IEC).

The CECC voting procedure has been concluded on draft prEN 116503:1992 circulated as document CECC(Secretariat)3004/12.91 and has resulted in a positive vote.

The voting report [document CECC(Secretariat)3145/6.92] has been submitted for formal approval and has been accepted. The reference document was approved by CECC as EN 116503:1992 on 10 August 1992.

The following dates were fixed:

- latest date of announcement of the EN at national level (doa) 1993-08-17
- latest date of publication of an identical national standard (dop) 1994-02-17
- latest date of declaration of national standards obsolescence 1994-02-17
- latest date of withdrawal of conflicting national standards (dow) 2003-08-17

Foreword to amendment A1:1995

This amendment to the European Standard EN 116503 was prepared by CLC/TC CECC/WG 16.

The text of the draft based on document CECC (Secretariat) 3493 was submitted to the formal vote; together with the voting report, circulated as document CECC (Secretariat) 3594, it was approved as amendment A1 to EN 116503:1992 on 1994-08-22.

The following dates were fixed:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1995-06-11
- latest date by which national standards conflicting with the amendment have to be withdrawn (dow) 1996-06-11
