Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CII/37, Fertilizers and related chemicals, upon which the following bodies were represented:

- Association of Public Analysts
- British Aggregate Construction Materials Industries
- Chemical Industries' Association
- Consumers' Association
- Fertiliser Manufacturers Association Ltd.
- Institute of Trading Standards Administration
- Laboratory of the Government Chemist
- Ministry of Agriculture, Fisheries and Food
- Water Services Association of England and Wales

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 June 1997

National foreword

This British Standard has been prepared by Technical Committee CII/37, and is the English language version of EN 12047 : 1996, *Solid fertilizers — Measurement of static angle of repose* (ISO 8398 : 1989 modified), published by the European Committee for Standardization (CEN). It was derived by CEN from ISO 8398 : 1989, *Solid fertilizers — Measurement of static angle of repose*, published by the International Organization for Standardization (ISO). It supersedes BS 5551 : Part 3 : Section 3.6 : 1989 which is withdrawn.

Cross-reference

Publication referred to	Corresponding British Standard
ISO 5725 : 1986	BS 5497 <i>Precision of test methods</i> Part 1 : 1987 <i>Guide for the determination of repeatability and reproducibility for a standard test method by inter-laboratory tests</i>

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.
