National foreword

This British Standard is the English language version of EN 12324-2:1999.
The UK participation in its preparation was entrusted to Technical Committee AGE/30, Irrigation and drainage equipment, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 11 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

This British Standard, having been prepared under the direction of the Engineering Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 November 1999

enrouleurs

Bewässerungsverfahren - Beregnungsmaschinen mit
Regnereinzug - Teil 2: Festlegungen für Polyethylenrohre
für Beregnungsmaschinen mit Regnereinzug

This European Standard was approved by CEN on 8 July 1999.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Specifications for the material of the polyethylene tubes 5

4.1 General 5

4.2 Characteristics 5

4.3 Classification and designation 6

4.4 Overall service (design) coefficient and design stress 7

4.5 Reprocessable materials 7

5 General characteristics for pipes 7

5.1 Visual inspection 7

5.2 Colour 7

5.3 Geometrical characteristics 7

5.4 Length 7

5.5 Mechanical characteristics 9

6 Selection of the series number according to the length 9

7 Calculation of the reference mass per unit length 9

8 Internal diameter of coils for transportation 10

9 Marking 10

9.1 Contents of the marking 10

9.2 Spacing between the markings 10

9.3 Example of marking for 1 m spacing between the markings 11

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 334, Irrigation techniques, the Secretariat of which is held by AFNOR.

Within its programme of work, Technical Committee CEN/TC 334, Irrigation techniques, charged CEN/TC 334/WG 1, Reel Machine Systems, to prepare the following standard:

- EN 12324-2, *Irrigation techniques - Reel machine systems - Part 2: Specifications of polyethylene tubes for reel machines.*

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2000, and conflicting national standards shall be withdrawn at the latest by February 2000.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The other standards concerning the irrigation techniques are:

- EN 12324-1, *Irrigation techniques - Reel machine systems - Part 1: Size series;*
- EN 12324-3, *Irrigation techniques - Reel machine systems - Part 3: Presentation of technical characteristics;*
- EN 12324-4, *Irrigation techniques - Reel machine systems - Part 4: Guidance documents for the users;*
- prEN ISO 8224-1, *Traveller irrigation machines - Part 1: Laboratory and field test methods.*
