National foreword

This British Standard is the English language version of EN 12325-1:1998.
The UK participation in its preparation was entrusted to Technical Committee AGE/30, Irrigation and drainage equipment, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 9 and a back cover.

This British Standard, having been prepared under the direction of the Engineering Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 May 1999

Irrigation techniques — Centre pivot and moving lateral systems — Part 1: Presentation of the technical characteristics

Techniques d'irrigation — Installations avec pivots
et rampes frontales — Partie 1: Présentation des
caractéristiques techniques

Bewässerungsverfahren — Kreis- und
Linearberegnungsmaschinen — Teil 1: Angabe
technischer Kennwerte

This European Standard was approved by CEN on 28 November 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 334, Irrigation techniques, the Secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 1999, and conflicting national standards shall be withdrawn at the latest by June 1999.

Within its work programme, CEN/TC 334 requested Working Group CEN/TC 334/WG 2, Centre pivot and moving laterals, to prepare the following standard:

prEN 12325-1, *Irrigation techniques — Centre pivot and moving lateral systems — Part 1: Presentation of the technical characteristics*.

The other parts of this standard are:

prEN 12325-2, *Irrigation techniques — Centre pivot and moving lateral systems — Part 2: Minimum performances and technical characteristics*.

prEN 12325-3, *Irrigation techniques — Centre pivot and moving lateral systems — Part 3: Terminology and classification*.

prEN ISO 11545, *Agricultural irrigation equipment — Centre-pivot and moving lateral irrigation machines with sprayer or sprinkler nozzles — Determination of uniformity of water distribution*.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page
Foreword	2
1 Scope	3
2 Normative references	3
3 Definitions and units	3
4 General characteristics	3
5 Characteristics of the structure	3
5.1 Joint dimensional and construction characteristics	3
5.2 Particularities of the different pivot types	5
5.3 Particularities of moving laterals	5
5.4 Particularities of mixed pivots-laterals	5
5.5 Anticorrosion protection	6
6 Characteristics of the kinetic chain	6
6.1 Electromechanical drive	6
6.2 Other type of advancing chain	6
6.3 Wheels	6
6.4 Maximum speed	6
7 Coupling between spans	7
7.1 Nature	7
7.2 Maximum angles between adjacent spans	7
7.3 Alignment devices	7
8 Characteristics of the electrical equipment	7
8.1 General safety	7
8.2 Main control panel	7
8.3 Collector ring	7
8.4 Electric cables	7
8.5 Alignment box	7
9 Sprinkler characteristics	8
9.1 Sprinkler characteristics	8
9.2 End gun	8
9.3 Example of presentation of nozzle programme	8
9.4 Table doses/settings	8
10 Hydraulic characteristics	9
11 Recapitulatory table	9
