National foreword

This British Standard has been prepared by Technical Committee EH/3 and is the English language version of EN 1233 *Water quality — Determination of chromium — Atomic absorption spectrometric methods*, published by the European Committee for Standardization (CEN). It supersedes BS 6068 : Section 2.38 : 1990, which is withdrawn.

NOTE. The tests described in this British Standard should only be carried out by suitably qualified persons with an appropriate level of chemical expertise. Standard chemical procedures should be followed throughout.
