

Thermal insulating products for building applications — Determination of thickness for floating floor insulating products

The European Standard EN 12431:1998, incorporating amendment A1:2006, has the status of a British Standard

ICS 91.100.99

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 12431:1998, incorporating amendment A1:2006. It is one of a large number of European test method standards which have been introduced for thermal insulating products. Guidance on the content and application of these new test methods is given in PD 6621.

The start and finish of text introduced or altered by amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated in the text by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee B/540, Energy performance of materials, components and buildings, to Subcommittee B/540/1, European standards for thermal insulation.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee and comes into effect on 15 December 1998

Amendments issued since publication

Amd. No.	Date	Comments
16793	29 December 2006	See national foreword

ICS 91.100.99

Descriptors: thermal insulation, buildings, thermal insulating materials, building slabs, thickness measurement, acoustic insulation, test equipment, specimen preparation, testing conditions, fidelity, test results

English version

Thermal insulation products for building applications — Determination of thickness for floating floor insulating products

Produits isolants thermiques destinés aux
applications du bâtiment — Détermination de
l'épaisseur des produits d'isolation pour sol flottant

Wärmedämmstoffe für das Bauwesen —
Bestimmung der Dicke von Dämmstoffen unter
schwimmendem Estrich

This European Standard was approved by CEN on 5 June 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
