Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee IST/17, Identification cards and related devices, upon which the following bodies were represented:

- APACS (Barclaycard)
- APACS (Co-operative Bank)
- APACS (Lloyds Bank)
- APACS (Midland Bank)
- APACS (National Westminster Bank)
- Association for Payment Clearing Services (APACS)
- BT Laboratories
- Cellnet
- Consumer Policy Committee of BSI
- GPT Card Technology
- Mondex International
- Motorola Ltd.
- Rochford Thompson Equipment
- Shell UK
- Stationery Office
- Thorn Transit Systems International
- Vodafone Ltd.
- Westinghouse Cubic Ltd.

This British Standard, having been prepared under the direction of the DISC Board, was published under the authority of the Standards Board and comes into effect on 15 July 1997

National foreword

This British Standard has been prepared by Technical Committee IST/17 and is the English language version of EN 1362 : 1997 *Identification card systems — Device interface characteristics — Classes of device interfaces*, published by the European Committee for Standardization (CEN).

This British Standard is published under the direction of the DISC Board whose Technical Committee IST/17 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

Important note. EN 1362 : 1997 was produced as a result of international discussions by CEN Technical Committee TC 224 in which the UK took an active part. The UK voted against the draft of EN 1362 : 1997 on the basis that Technical Committee IST/17 could foresee no practical application for the standard. However, the terms of the UK's membership in CEN require BSI to publish this standard.

Any enquiries about this British Standard should be directed to the Secretary of Technical Committee IST/17 at BSI.

NOTE. International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London, W4 4AL.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14, an inside back cover and a back cover.

ICS 35.240.15

Descriptors: Telecommunication, telecommunication terminals, magnetic cards, interfaces, characteristics, classifications, dimensions, messages, codification

English version

Identification card systems — Device interface characteristics — Classes of device interfaces

Systèmes de cartes d'identification —
Caractéristiques d'interface des terminaux —
Classes d'interfaces

Identifikationskartensysteme — Eigenschaften von
Endgeräteschnittstellen — Schnittstellenklassen

This European Standard was approved by CEN on 1996-12-25. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 224, Machine-readable cards, related device interfaces and operations, the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text, or by endorsement, at the latest by July 1997, and conflicting national standards shall be withdrawn at the latest by July 1997.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
