

Fire resistance tests for loadbearing elements —

Part 5: Balconies and walkways

The European Standard EN 1365-5:2004 has the status of a British Standard

ICS 13.220.50

National foreword

This British Standard is the official English language version of EN 1365-5:2004.

The UK participation in its preparation was entrusted by Technical Committee FSH/22, Fire resistance tests, to Subcommittee FSH/22/7, Test procedures for partitions and walls, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.
