

Concrete pavements —

Part 2: Functional requirements for concrete pavements

The European Standard EN 13877-2:2004 has the status of a
British Standard

ICS 93.080.20

National foreword

This British Standard is the official English language version of EN 13877-2:2004.

The UK participation in its preparation was entrusted by Technical Committee B/510, Road materials, to Subcommittee B/510/3, Materials for concrete roads, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.
