

Touch-and-close fasteners — Cycling procedure for subsequent testing

The European Standard EN 1414:1996, with the incorporation of amendment A1:2000, has the status of a British Standard

ICS 61.040

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee TCI/66, Apparel, upon which the following bodies were represented:

Association of Button Merchants
Association of Suppliers to the British Clothing Industry
British Measurement and Testing Association
British Retail Consortium
Camping and Outdoor Leisure Association
Child Accident Prevention Trust
Confederation of British Wool Textiles Limited
Consumer Policy Committee of BSI
Department of Trade and Industry
Fabric Care Research Association Ltd.
Home Office
Knitting Industries Federation Ltd.
Mail Order Traders' Association
National Association of Teachers of Home Economics and Technology Ltd.
National Children's Wear Association
SATRA Footwear Technology Centre
Society of Dyers and Colourists
Textile Finishers' Association
Zip Fastener Manufacturers' Association

The following body was also represented in the drafting of the standard, through subcommittees and panels:

Made-up Textiles' Association

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 June 1997

National Foreword

This British Standard has been prepared by Technical Committee TCI/66, and is the English language version of EN 1414:1996 *Touch-and-close fasteners — Cycling procedure for subsequent testing*, including amendment A1:2000, published by the European Committee for Standardization (CEN).

It is one of a series of standards for touch-and-close fasteners. Other standards in the current series have the following titles:

BS EN 1415, *Touch-and-close fasteners — Behaviour of slit selvages*.

BS EN 1416, *Touch-and-close fasteners — Determination of curvature*.

BS EN 12240, *Touch-and-close fasteners — Determination of the overall widths of tapes and the effective width of a closure*.

BS EN 12241, *Touch-and-close fasteners — Method for closure prior to washing and drying or dry cleaning*.

BS EN 12242, *Touch-and-close fasteners — Determination of peel strength*.

BS EN 12243, *Touch-and-close fasteners — Determination of dimensional change in washing and drying and dry cleaning*.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

Sidelining in this document indicates the most recent changes by amendment.

English version

Touch-and-close fasteners — Cycling procedure for subsequent testing

(includes amendment A1:2000)

Fermetures auto-agrippantes — Appareil simulateur d'usage
(inclut l'amendement A1:2000)

Haftverschlüsse — Schließ- und Öffnungsverfahren für nachfolgende Prüfungen
(enthält Änderung A1:2000)

This European Standard was approved by CEN on 1996-09-14. Amendment A1 was approved by CEN on 19 February 2000. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
