National foreword

This British Standard is the English language version of EN 1418:1997 published by the European Committee for Standardization (CEN).

The UK participation in its preparation was entrusted to Technical Committee WEE/36, Approval testing of welding procedures and welders, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 9, and a back cover.

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 April 1998

EUROPEAN STANDARD
NORME EUROPÉENNE
EUROPÄISCHE NORM

EN 1418

December 1997

ICS 25.160.10

Descriptors: Welding, lasers, arc welding, electron beam welding, submerged arc welding, gas shielded welding, pressure welding, welded joints, metals, qualification, certification, welders (personnel), acceptability, tests, testing conditions

English version

Welding personnel — Approval testing of welding operators for fusion welding and resistance weld setters for fully mechanized and automatic welding of metallic materials

Personnel en soudage — Epreuve de qualification des opérateurs soudeurs pour le soudage par fusion et des régleurs en soudage par résistance pour le soudage totalement mécanisé et automatique des matériaux métalliques

Schweißpersonal — Prüfung von Bedienern von Schweißeinrichtungen zum Schmelzschweißen und von Einrichtern für das Widerstandsschweißen für vollmechanisches und automatisches Schweißen von metallischen Werkstoffen

This European Standard was approved by CEN on 3 November 1997.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 121, Welding, of which the secretariat is held by DS.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 1998, and conflicting national standards shall be withdrawn at the latest by June 1998.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

		Page
Foreword		2
Introduction		3
1	Scope	3
2	Normative references	3
3	Definitions	3
3.1	automatic welding	3
3.2	function test	3
3.3	fully mechanized welding	4
3.4	pre-production welding test	4
3.5	production test	4
3.6	production sample testing	4
3.7	programming	4
3.8	robotic welding	4
3.9	setting-up	4
3.10	welding operator	4
3.11	resistance weld setter	4
3.12	welding unit	4
3.13	welding unit operation	4
3.14	examiner or examining body	4
4	Approval	4
4.1	General	4
4.2	Essential variables and ranges of approval	4
4.3	Period of validity	5
5	Prolongation	5
6	Certificate	6
7	Documentation	6
Annex A (informative) Knowledge on welding technology		7
Annex B (normative) Functional knowledge appropriate to the welding unit		8
Annex C (informative) Approval test certificate for welding operators/resistance weld setters		9
