Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee GSE/38, Installation and equipment for LNG, upon which the following bodies were represented:

- British Gas plc
- Department of Transport
- Health and Safety Executive
- Institution of Gas Engineers

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1997

English version

Installation and equipment for liquefied natural gas — Ship to shore interface

Installations et équipements relatifs au gaz naturel
liquéfié — Interface terre navire

Anlagen und Ausrüstung für Flüssigerdgas —
Schnittstelle zwischen Schiff und Land

This European Standard was approved by CEN on 1997-02-24. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 282, Installation and equipment for LNG, the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 1997, and conflicting national standards shall be withdrawn at the latest by September 1997.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page		Page
Foreword	2	8.4 Ship's cargo control room operating devices	9
0 Introduction	3	8.5 Ship's firefighting equipment	9
1 Scope	3	8.6 Protection of the ship's structure	9
2 Normative references	3	8.7 Communication equipment	9
3 Definitions and abbreviations	4	8.8 Ship's electrical safety	9
3.1 Definitions	4	8.9 LNG pumping system	9
3.2 Abbreviations	4	8.10 Cooling down systems	9
4 List of items that make up the ship to shore interface	4	8.11 Bunkering connection	9
5 Description of LNG and associated hazards	4	8.12 Fresh water connection	9
5.1 Description of LNG	4	8.13 Arrangements for personnel access	9
5.2 Hazards associated with LNG	4	9 Ship/shore transfer facility equipment	9
5.3 Hazards associated with LNG transfer	4	9.1 General	9
5.4 Potential external factors	5	9.2 Design and construction of the jetty and associated equipment	9
6 Hazardous areas	5	9.3 Loading/unloading arms	10
7 Safety precautions	5	9.4 Communication equipment (see 8.7)	10
7.1 General	5	9.5 Firefighting equipment and procedures	10
7.2 Basic precautions	5	9.6 Main control room	11
7.3 Additional precautions	8	9.7 Vapour return system	11
8 Ship equipment	8	9.8 Crew and personnel access (see 7.2.9)	11
8.1 Ship's mooring equipment	8	9.9 Motor operated valves, (MOV) for ESD	11
8.2 Ship's working platform and cargo manifold arrangements	8	9.10 Jetty's electrical safety	11
8.3 Motor operated valves (MOV) for ESD	8	9.11 Ship's storing arrangements	11
		10 LNG transfer procedure	11
		10.1 Necessary provisions prior to ship acceptance	11
		10.2 Conditions for port entry	11
		10.3 Conditions to be fulfilled prior to connecting loading/unloading arms	11
		10.4 Conditions to be fulfilled prior to the transfer of LNG	12
		10.5 Fulfilment of the safety conditions during transfer operations	12
		10.6 Conditions to be fulfilled following ship's transfer	12
		10.7 Shore and ship protection of personnel on duty	12
		10.8 Responsibilities	12
		11 Training of personnel	12
		Annex A (informative) General safety philosophy	13
		Annex B (informative) Bibliography	14
