Rubber or plastic coated fabrics — Mechanical properties — Determination of the elongation under load and the residual deformation

National foreword

This British Standard is the UK implementation of EN 15977:2011.

The UK participation in its preparation was entrusted to Technical Committee TCI/24, Physical testing of textiles.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
