

Sawn timber — Appearance grading of softwoods —

Part 1: European spruces, firs, pines, Douglas fir and larches

The European Standard EN 1611-1:1999, with the incorporation of amendment A1:2002, has the status of a British Standard

ICS 79.040

National foreword

This British Standard is the official English language version of EN 1611-1:1999, including amendment A1:2002.

The start and finish of text introduced or altered by amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee B/543, Round and sawn timber, to Subcommittee B/543/2, Sawn timber, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee on 15 April 2000

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 9 and a back cover.

English version

**Sawn timber - Appearance grading of softwoods - Part 1 :
European spruces, firs, pines, Douglas fir and larches
(includes amendment A1:2002)**

Bois sciés - Classement d'aspect des bois
résineux - Partie 1 : Epicéas, sapins, pins,
Douglas et mélèzes européens
(inclut l'amendement A1:2002)

Schnittholz - Sortierung nach dem Aussehen von
Nadelholz - Teil 1 : Europäische Fichten,
Tannen, Kiefern, Douglasie und Lärchen
(enthält Änderung A1:2002)

This European Standard was approved by CEN on 23 July 1999. Amendment A1 was approved by CEN on 1 May 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by the Technical Committee CEN/TC175, Round and sawn timber, the Secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2000, and conflicting national standards shall be withdrawn at the latest by February 2000.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

This standard is one of a series of standards concerning appearance grading of non-structural timber. The other standard of this series is:

EN 975-1 Sawn timber - Appearance grading of hardwoods - Part 1: Oak and beech.
