Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee EPL/49, Piezoelectric devices for frequency control and selection, upon which the following bodies were represented:

- Federation of the Electronics Industry
- Institute of Physics
- Institute of Electrical Engineers
- Ministry of Defence
- National Supervising Inspectorate (BSI-PC)

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 July 1996

National foreword

This British Standard has been prepared by Technical Committee EPL/49 and is the English language version of EN 167101:1995 *Blank detail specification: Piezoelectric filters (Capability approval)*, published by the Electronic Components Committee (CECC) of the European Committee for Electrotechnical Standardization (CENELEC).

This standard lists the ratings, characteristics and inspection requirements to be included as mandatory requirements in any detail specification for this type of filter.

Detail specifications need to conform to the requirements of this blank detail specification and BS CECC 00111 *Rule of Procedure 11. Specifications — Part 4:1991 Regulations for CECC detail specifications*.

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality — Part 2:1996 Specification for the national implementation of the CECC system*.

Cross-reference

Publication referred to	Corresponding British Standard

Copyright. BSI copyright (see back cover) does not preclude the reproduction and free use of the pro forma pages in the course of preparing detail specifications. A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Quality, electronic components, piezoelectric filters

This European Standard was approved by CENELEC on 1993-11-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
