Thermal insulation products of buildings — In-situ formed products from loose-fill expanded polystyrene (EPS) beads and bonded expanded polystyrene beads

Part 2: Specification for the bonded and
loose-fill products after installation

National foreword

This British Standard is the UK implementation of EN 16809-2:2017.

The UK participation in its preparation was entrusted to Technical Committee PRI/72, Rigid cellular materials.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
