Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee EPL/86, Fibre optics, upon which the following bodies were represented:

- BECCAMA (BEAMA Electrical Cable and Conductor Accessory Manufacturers' Association)
- British Approvals Service for Cables
- British Cable Makers Confederation
- British Telecommunications plc
- Department of Trade and Industry (National Physical Laboratory)
- ERA Technology Ltd
- Federation of the Electronics Industry
- Fibreoptic Industry Association (FIA)
- Ministry of Defence
- National Supervising Inspectorate (BSI QA)
- Optical Sensors Collaborative Association
- Society of Cable Television Engineers

National foreword

This British Standard has been prepared by Technical Committee EPL/86, and is the English language version of EN 180101:1995, *Blank detail specification: Fixed fibre optic attenuators*, published by the Electronic Components Committee (CECC) of the European Committee for Electrotechnical Standardization (CENELEC).

This standard lists the ratings, characteristics and inspection requirements which shall be included as mandatory requirements in any detail specification for this type of attenuator.

Detail specifications shall conform to the requirements of this blank detail specification and BS CECC 00111 *Rule of Procedure 11. Specifications Part 4:1991 Regulations for CECC detail specifications*.

The British Standard which implements the CECC Rules of Procedure is BS 9000 *General requirements for a system for electronic components of assessed quality Part 2:1991 Specification for the national implementation of the CECC system*.

Cross-references

Publication referred to	Corresponding British Standard

^a In preparation.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, page 2, the CECC title page, pages ii to iv, pages 1 to 15 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This European Standard was approved on 1995-03-06. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

At the request of Working Group CLC/TC CECC/WG 27, the text of CECC 80101:1994, Issue 1, was submitted to the formal vote for conversion into a European Standard. It was approved by CENELEC as EN 180101 on 1995-03-06.

The following date was fixed:

- latest date by which the
EN has to be implemented
at national level by
publication of an identical
national standard or by
endorsement (dop) 1996-03-01

Förderverein für Elektrotechnische Normung (FEN) e. V.
