Resilient and laminate floor coverings — Assessment of static electrical propensity

National foreword

This British Standard is the UK implementation of EN 1815:2016. It supersedes BS EN 1815:1998 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/60, Resilient and Laminate Floor Coverings.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
