National foreword

This British Standard is the English language version of EN 1978:1998. Together with BS EN 1976:1998 it supersedes BS 6017:1981 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee NFE/34, Copper and copper alloys, to Subcommittee NFE/34/1, Wrought and unwrought copper and copper alloys, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 9 and a back cover.

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1998

English version

Copper and copper alloys — Copper cathodes

Cuivre et alliages de cuivre — Cathodes en cuivre Kupfer und Kupferlegierungen — Kupfer-Kathoden

This European Standard was approved by CEN on 28 February 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 133, Copper and copper alloys, the secretariat of which is held by DIN.

Within its programme of work, Technical Committee CEN/TC 133 requested CEN/TC 133/WG 1, Unwrought copper products to prepare the following standard:

EN 1978, *Copper and copper alloys — copper cathodes*.

This is one of a series of European Standards for products manufactured from refined copper grades. Other products are specified as follows:

EN 1976, *Copper and copper alloys — Cast unwrought copper products*.

EN 1977, *Copper and copper alloys — Copper drawing stock (wire rod)*.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 1998, and conflicting national standards shall be withdrawn at the latest by September 1998.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page
Foreword	2
Introduction	3
1 Scope	3
2 Normative references	3
3 Definitions	3
3.1 cathode	3
3.2 lot (copper cathodes)	3
3.3 bundle	3
3.4 sample cathodes	3
3.5 cathode sample	3
3.6 bulk sample	3
3.7 analysis sample	3
4 Designations	3
4.1 Material	3
4.2 Product	3
5 Ordering information	4
6 Requirements	4
6.1 Composition	4
6.2 Electrical properties	4
6.3 Dimensions and tolerances	4
6.4 Surface condition	4
7 Sampling	6
8 Test methods	6
8.1 Analysis	6
8.2 Electrical resistivity	6
8.3 Retests	6
8.4 Rounding of results	6
9 Declaration of conformity and inspection documentation	7
9.1 Declaration of conformity	7
9.2 Inspection documentation	7
10 Marking	10
Annex A (normative) — Methods for use in cases of dispute, for the sampling of cathodes and for the preparation of analysis samples	8
Annex B (informative) — Information on electrical resistivity and conductivity relationships	9
Annex C (informative) — Bibliography	9
