National foreword

This British Standard has been prepared under the direction of the Textiles and Clothing Standards Policy Committee. It is the English language version of EN 20105-B02:1992 *Textiles — Tests for colour fastness — Part B02: Colour fastness to artificial light (xenon arc fading lamp test)*, published by the European Committee for Standardization (CEN) which is identical with ISO 105-B02:1988, published by the International Organization for Standardization (ISO).

The technical content of this British Standard is identical with that of the corresponding method in BS 1006:1990 *Methods of test for colour fastness of textiles and leather*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
