National foreword

This British Standard has been prepared under the direction of the Adhesives Standards Policy Committee and is the English language version of EN 205:1991, published by the European Committee for Standardization (CEN). It supersedes clause 4 of BS 3544:1962 which is deleted by amendment, and DD 74:1981 which is withdrawn.

EN 205 was produced as a result of international discussions in which the United kingdom took an active part.

EN 205:1991 has been approved by CEN Member Bodies under the weighted voting procedures introduced in 1988 to coincide with the introduction of “New Approach” Directives from the Commission of the European Community.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
