National foreword

This British Standard has been prepared under the direction of the Aerospace Standards Policy Committee and is the English language version of EN 2070 “*Aerospace series. Aluminium and aluminium alloy wrought products. Technical specification.*” Part 5: “*Tube used under pressure*”, published by the European Committee for Standardization (CEN). EN 2070-5 was produced as a result of international discussion in which the UK took an active part.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
