National foreword

This British Standard has been prepared under the direction of the Aerospace Standards Policy Committee and is the English language version of EN 2155-14:1993 *Aerospace series — Test methods for transparent materials for aircraft glazing — Part 14: Determination of the 1/10 Vicat softening temperature*, published by the European Committee for Standardization (CEN).

EN 2155-14 was produced as a result of international discussion in which the UK took an active part.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
