Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Packaging and Freight Containers Standards Committee (PKM/-) to Technical Committee PKM/501, upon which the following bodies were represented:

- Association of Drum Manufacturers
- British Fibreboard Packaging Association
- Chemical Industries Association
- Department of Trade and Industry (Laboratory of the Government Chemist)
- Electronic Components Industry Federation
- Glass Manufacturers' Federation
- Institute of Packaging
- Ministry of Defence
- PIRA (The Research Association for the Paper and Board, Printing and Packaging Industries)
- Society of Motor Manufacturers and Traders Limited
- Telecommunication Engineering and Manufacturing Association (TEMA)
- Timber Research and Development Association

This British Standard, having been prepared under the direction of the Packaging and Freight Containers Standards Committee, was published under the authority of the Board of BSI and comes into effect on 30 June 1986

Foreword

This revision of this Part of BS 4826 has been prepared under the direction of the Packaging and Freight Containers Standards Committee.

In 1992 the European Committee for Standardization (CEN) accepted ISO 2233:1986 as European Standard EN 22233:1992. As a consequence of implementing the European Standard this British Standard is renumbered as BS EN 22233 and any reference to BS 4826-2 should be read as a reference to BS EN 22233.

The procedure described is based upon ISO 2233 published by the International Organization for Standardization (ISO) but includes additional atmospheric conditions to comply with Ministry of Defence requirements. The present edition now lists 12 atmospheric conditions which may be used instead of only eight in the 1972 edition and includes relaxed relative humidity tolerances. The present edition supersedes BS 4826-2:1972 which is withdrawn.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
