

Complete, filled transport packages. Method for determination of resistance to damage by rolling

The European Standard EN 22876:1992 has the status of a
British Standard

UDC 621.798.1:620.165.72

Committees responsible for the British Standard

The preparation of this British Standard was entrusted by the Packaging and Freight Containers Standards Committee (PKM/-) to Technical Committee PKM/501, upon which the following bodies were represented:

- Association of Drum Manufacturers
- British Fibreboard Packaging Association
- Chemical Industries Association
- Department of Trade and Industry (Laboratory of the Government Chemist)
- Electronic Components Industry Federation
- Glass Manufacturers' Federation
- Institute of Packaging
- Ministry of Defence
- PIRA (The Research Association for the Paper and Board, Printing and Packaging Industries)
- Society of Motor Manufacturers and Traders Limited
- Telecommunication Engineering and Manufacturing Association (TEMA)
- Timber Research and Development Association

This British Standard, having been prepared under the direction of the Packaging and Freight Containers Standards Committee, was published under the authority of the Board of BSI and comes into effect on 30 June 1986
