National foreword

This British Standard has been prepared under the direction of the Iron and Steel Standards Policy Committee and is the English language version of EN 24496:1993 *Metallic powders — Determination of acid insoluble content in iron, copper, tin and bronze powders*, published by the European Committee for Standardization (CEN). It is identical with ISO 4496:1978, published by the International Organization for Standardization (ISO).

This British Standard supersedes BS 5600-2.9:1980 which is withdrawn. This edition makes no technical changes to the standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
