

Rubber- or plastics-coated fabrics — Determination of blocking resistance

The European Standard EN 25978:1993 has the status of a
British Standard

UDC 677.077.65:687.066:677.017.424.25:620.1

Cooperating organizations

The European Committee for Standardization (CEN), under whose supervision this European Standard was prepared, comprises the national standards organizations of the following countries:

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisliito, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, having been prepared under the direction of the Plastics and Rubber Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 November 1993

National foreword

This British Standard has been prepared under the direction of the Plastics and Rubber Standards Policy Committee and is the English language version of EN 25978:1993, published by the European Committee for Standardization (CEN). It supersedes BS 3424-11:1982 which is withdrawn.

In 1993 the European Committee for Standardization (CEN) accepted ISO 5978:1990 as European Standard EN 25978:1993. As a consequence of implementing the European Standard BS 3424-11 is renumbered as BS EN 25978:1993. This edition makes no technical changes to the standard.

The standard was developed by Working Group WG13 of Technical Committee ISO/TC45, Rubber and Rubber Products. Attention is drawn to National annex NA concerning stacking of single-face coated fabrics for testing.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
