Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ACE/12, Aerospace fasteners and fastening systems, upon which the following bodies were represented:

- Association of Electronic, Telecommunications and Business Equipment Industries
- British Industrial Fasteners Federation
- Ministry of Defence
- Society of British Aerospace Companies

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1997

National foreword

This British Standard has been prepared by Technical Committee ACE/12 and is the English language version of EN 2653:1996 *Aerospace series — Screws, 100° countersunk normal head, slotted, threaded to head, in corrosion resisting steel, passivated — Classification: 600 MPa (at ambient temperature)/425 °C*, published by the European Committee for Standardization (CEN).

EN 2653:1996 was produced as a result of international discussions in which the United Kingdom took an active part.
