Cooperating organizations

The European Committee for Standardization, under whose supervision this European Standard was prepared, comprises the national standards organizations of the following Western European countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimislitto, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, was published under the authority of the Standards Board and comes into effect on 30 August 1991

National foreword

This British Standard has been prepared under the direction of the Elements and Components (of Diverse Materials) for Buildings Standards Policy Committee. It is the English language version of EN 26927:1990 “*Building construction — Jointing products — Sealants — Vocabulary*” published by the European Committee for Standardization (CEN). EN 26927:1990 is identical with ISO 6927:1981 published by the International Organization for Standardization (ISO).

The standard was developed by Sub-committee ISO/TC 59/SC 8, Jointing Products, of Technical Committee ISO/TC 59, Building Construction, as an aid to technical discussions in the field of International Standardization for sealants.

Technical terms for sealants are defined for use in building construction. Definitions 2.2 to 2.6, 2.9 to 2.12, 2.14, 2.16, 2.18, 2.19, 2.24 and 2.27 are technically equivalent to those given in clause 2 of BS 6213:1982 “*Guide to selection of constructional sealants*”.

For ease of reproduction, the French text has been retained.

National appendices are designated “informative”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
