Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ACE/44, Protective treatments and finishes for aerospace purposes, upon which the following bodies were represented:

- Aluminium Finishing Association
- British Coatings Federation Ltd.
- Metal Finishing Association
- Ministry of Defence
- National Centre of Tribology
- Oil and Colour Chemists' Association
- Society of British Aerospace Companies

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1997

National foreword

This British Standard has been prepared by Technical Committee ACE/44 and is the English language version of EN 2808:1997 *Aerospace series — Anodizing of titanium and titanium alloys*, published by the European Committee for Standardization (CEN).

EN 2808:1997 was produced as a result of international discussions in which the United Kingdom took an active part.

Cross-references

The British Standard corresponding to the European Standard referred to in the text is identical in number and title with that given in clause 4.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
