National foreword

This British Standard has been prepared under the direction of the BSI Standards Board and is the English language version of EN 282 : 1991 *Avalanche beacons — Transmitter/receiver systems — Safety requirements and testing*, published by the European Committee for Standardization (CEN).

This British Standard has been produced to fulfil BSI's obligation to publish all approved European Standards but, because of the absence of interest in the UK in the subject concerned, there has been no UK participation in the preparation of EN 282.

Any queries relating to the EN should be directed to BSI quoting the reference SW/136.
