National foreword

This British Standard has been prepared by Technical Committee ACE/12 and is the English language version of EN 2938:1995 *Aerospace series — Screws, hexagon head, threaded to head, in heat resisting steel FE-PA92HT (A 286), silver plated — Classification: 900 MPa (at ambient temperature)/650 °C*, published by the European Committee for Standardization (CEN).

EN 2938:1995 was produced as a result of international discussions in which the United Kingdom took an active part.

Cross-references

The British Standards corresponding to the European Standards referred to in the text are identical in number and title with those given in clause 2, with the exception of EN 2398, EN 2399, EN 2424, EN 2786 and EN 3043 for which no corresponding British Standards exist. The British Standards corresponding to the International Standards referred to in the text are as follows.

Publication referred to	Corresponding British Standard
ISO 3353:1992	BS 2A 231:1993 <i>Rolled threads for bolts — Lead and runout requirements</i>
ISO 5855:1988	BS 6293 <i>Aerospace — MJ threads</i> Part 2:1994 <i>Limit dimensions for bolts and nuts</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
