

Vitrified clay pipes and fittings and pipe joints for drains and sewers —

Part 5: Requirements for perforated vitrified clay pipes and fittings

The European Standard EN 295-5 : 1994 has the status of a British Standard

ICS 23.040.50; 91.100.15; 91.140.80

Cooperating organizations

The European Committee for Standardization (CEN), under whose supervision this European Standard was prepared, comprises the national standards organizations of the following countries:

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisliito, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, having been prepared under the direction of the Technical Committee B/505, was published under the authority of the Standards Board and comes into effect on 15 August 1994

National foreword

This Part of BS EN 295 has been prepared under the direction of the Technical Committee for Waste Water Engineering and is the English language version of EN 295-5 : 1994 *Vitrified clay pipes and fittings and pipe joints for drains and sewers — Part 5 : Requirements for perforated vitrified clay pipes and fittings*, published by the European Committee for Standardization (CEN). This European Standard was prepared by Working Group 2, Vitrified clay pipes, of Technical Committee CEN/TC 165 with the active participation and approval of the UK.

It specifies requirements for perforated pipes and fittings with or without sockets for the construction of french drains, land drains and drainage of waste tips.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.
