

Shipbuilding and marine structures — Rungs for dog-step ladders

The European Standard EN 29519:1993 has the status of a
British Standard

UDC 629.12.046

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Mechanical Engineering Standards Policy Committee (GME/-) to Technical Committee GME/32, upon which the following bodies were represented:

- British Marine Equipment Council
- British Maritime Technology
- British Motor Ship Owners' Association
- British Waterways Board
- Department of Transport (Marine Directorate)
- General Council of British Shipping
- Lloyd's Register of Shipping
- Ministry of Defence
- North East Coast Institution of Engineers and Shipbuilders
- Shipbuilders' and Shiprepairers' Association

This British Standard, having been prepared under the direction of the General Mechanical Engineering Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 30 August 1991

National foreword

This British Standard has been prepared under the direction of the General Mechanical Engineering Standards Policy Committee. It is identical with ISO 9519:1990 “*Shipbuilding and marine structures — Rungs for dog-step ladders*”, published by the International Organization for Standardization (ISO).

In 1993 the European Committee for Standardization (CEN) accepted ISO 9519:1990 as European Standard EN 29519:1993. As a consequence of implementing the European Standard this British Standard is renumbered as BS EN 29519 and any reference to BS 7468 should be read as a reference to BS EN 29519.

Cross-references. The Technical Committee has reviewed the provisions of ISO 630:1980, ISO 1035-2:1980 and ISO 2768-1:1989 to which reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
