Cooperating organizations

The European Committee for Standardization (CEN), under whose supervision this European Standard was prepared, comprises the national standards organizations of the following countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisiito, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, having been prepared under the direction of the Adhesives Standards Policy Committee, was published under the authority of the standards Board and comes into effect on 15 September 1992

National foreword

This British Standard has been prepared under the direction of the Adhesives Standards Policy Committee and is the English language version of EN 302-3 “*Adhesives for load-bearing timber structures: test methods — Part 3: Determination of the effects of acid damage to wood fibres by temperature and humidity cycling on the transverse tensile strength*”, published by the European Committee for Standardization (CEN). EN 302-3 was produced as a result of international discussions in which the United Kingdom took an active part.

BS EN 301 and BS EN 302-1 to BS EN 302-4 supersede some of the provisions of BS 1204-1 to BS 1204-4. The remaining provisions of BS 1204-1 to BS 1204-4 will be published as a new edition of BS 1204, giving a specification and methods of test for MR grade adhesives (which are not covered in BS EN 301 and BS EN 302).

National appendix NA gives the constitution of the committee for UK participation in the preparation of this standard.

National appendix NB gives details of International Standards quoted in this standard for which there is an identical or technically equivalent British Standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
