Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee RHE/30, Heat exchangers, upon which the following bodies were represented:

- British Refrigeration Association
- Building Services Research and Information Association
- Federation of Environmental Trade Associations
- HEVAC Association
- Water Heater Manufacturers' Association

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 July 1997

National foreword

This British Standard has been prepared by Technical Committee RHE/30 and is the English language version of EN 308 : 1997, *Heat exchangers — Test procedures for establishing performance of air to air and flue gases heat recovery devices*, published by the European Committee for Standardization (CEN). DD ENV 308 is withdrawn.

EN 308 : 1997 was produced as a result of international discussions in which the UK took an active part.

Cross-references

Publication referred to	Corresponding British Standard
EN 305 : 1997	BS EN 305 : 1997 <i>Heat exchangers — Definitions of performance of heat exchangers and the general test procedure for establishing performance of all heat exchangers</i>

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

English version

Heat exchangers — Test procedures for establishing performance of air to air and flue gases heat recovery devices

Echangeurs thermiques — Procédures d'essai pour la détermination de la performance des récupérateurs de chaleur air/air et air/gaz Wärmeaustauscher — Prüfverfahren zur Bestimmung der Leistungskriterien von Luft/Luft- und Luft/Abgas – Wärmerückgewinnungsanlagen

This European Standard was approved by CEN on 1996-12-27. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 110, Heat exchangers, the secretariat of which is held by BSI.

This European Standard supersedes ENV 308 : 1990.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 1997, and conflicting national standards shall be withdrawn at the latest by July 1997.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page
Introduction	3
1 Scope	3
2 Normative references	3
3 Symbols and subscripts	3
4 Definitions	4
4.1 Heat recovery device	4
4.2 Mass flows	4
4.3 Ratios	4
4.4 External leakage	4
4.5 Internal leakage	4
4.6 Internal exhaust air leakage	4
4.7 Carry-over air flow	4
4.8 Reference conditions	4
4.9 Pressure	4
5 General requirements	4
5.1 Heat recovery device	4
5.2 External leakage	4
5.3 Internal exhaust air leakage	5
5.4 Carry-over	5
5.5 Temperature and humidity ratios	5
5.6 Pressure drop	6
6 Test procedures and accuracy requirements	7
6.1 External leakage test	7
6.2 Internal exhaust leakage test (categories I and IIa)	7
6.3 Carry-over test (category III)	7
6.4 Ratio tests (see figure 3)	7
6.5 Pressure drop tests (see figure 3)	8
6.6 Heat balance	8
7 Test report	8
7.1 Heat recovery device	8
7.2 External leakage	8
7.3 Internal exhaust air leakage	8
7.4 Carry-over	8
7.5 Temperature and humidity ratios	8
7.6 Pressure drop: for standard air	9
7.7 Other indications	9
