National foreword

This British Standard has been prepared under the direction of the Gas Standards Policy Committee and is the English language version of EN 377:1993 *Lubricants for applications in appliances and associated controls using combustible gases except those designed for use in industrial processes*, including amendment 1, published by the European Committee for Standardization (CEN).

EN 377 was produced as a result of international discussions in which the United Kingdom took an active part.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
