Text of EN 45503	5

National foreword

This British Standard was prepared by Technical Committee QS/3 and QS/3/1 and is the English language version of EN 45503:1996 *Attestation standard for the assessment of contract award procedures of entities operating in the water, energy, transport and telecommunication sectors*, published by the joint European Standards Institution (CEN/CENELEC).

EN 45503 is a significant addition to the EN 45000 series of standards that are designed to provide the basis for confidence in the various kinds of body engaged in conformity assessment. EN 45503 covers those bodies engaged in the attestation of the procurement practices of the utilities sector.

The EN 45000 series of standards will assist the process of mutual recognition between bodies engaged in conformity assessment, the development of national accreditation on a harmonized basis and the notification of such bodies by Governments to perform the relevant functions under European Community directives.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 03.120.20

Descriptors: Work contracts, supply contracts, services contracts, water, transportation, energy, telecommunications, capacitation, certification, approval organization, acceptance, purchase

English version

Attestation standard for the assessment of contract award procedures of entities operating in the water, energy, transport and telecommunication sectors

Norme d'attestation pour l'évaluation des procédures de passation des marchés des entités opérant dans les secteurs de l'eau, de l'énergie, des transports et des télécommunications

Bescheinigungs-Norm für die Bewertung der Auftragsvergabeverfahren von Auftraggebern im Bereich der Wasser-, Energie- und Verkehrsversorgung sowie im Telekommunikationssektor

This European Standard was approved by CEN/CENELEC on 1995-11-28. CEN/CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN/CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN/CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN/CENELEC members are the national standards bodies and national electrotechnical committees, respectively, of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
