National foreword

This British Standard is the UK implementation of EN 4551:2014. It supersedes BS EN 4551:2003 which is withdrawn.

BSI as a member of CEN is obliged to publish EN 4551:2014 as a British Standard. However, attention is drawn to the fact that during the development of this European Standard, the UK committee voted against its approval as a European Standard. The reason for this disapproval is that the UK committee considers the standard to describe an item for an interface that does not perform reliably in high pressure Aerospace applications. As a result it has not been used in a new design for some 30 years.

The UK participation in its preparation was entrusted to Technical Committee ACE/69, Aerospace hydraulic systems, fluids and components.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 October 2014.

Amendments/corrigenda issued since publication

Date	Text affected
30 November 2015	Implementation of CEN correction notice 26 November 2014 and 17 December 2014: Figure 1 corrected and header corrected

English Version

**Aerospace series - Pipe coupling, 37°, in heat resisting steel -
Swivel nuts - Inch series**

Série aérospatiale - Système de raccordement 37°, en acier
résistant à chaud - Écrous prisonniers - Série inch

Luft- und Raumfahrt - Rohrverschraubung 37°, aus
hochwarmfestem Stahl - Überwurfmutter - Inch-Reihe

This European Standard was approved by CEN on 4 January 2014.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.
